## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 12, 2004 has been entered.

### ***Response to Amendment***

2. Claims 1-5, 8 and 13 have been amended and claims 14-17 have been added as requested in the amendment filed on July 12, 2004. Claims 1-5, 8 and 13-17 are pending in the instant application.

Claims 1-5, 8 and 13-17 are under examination in the instant office action.

3. Any objection or rejection of record, which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

### ***Claim Objections***

4. Claim 1 is objected to because of the following informalities: recitation "polyol-to" should be "polyol to", perhaps. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 1646

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claim 13 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 13, as amended, contains recitation of thickeners, such as alcohols, which does not have support in the instant specification, as originally filed. This ground of rejection can be obviated by pointing out to the passage in the instant specification, which contains a specific reference to the newly presented limitation.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-5, 8 and 13-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Claim 1 is vague and indefinite because it appears to be missing essential punctuation mark, a comma, perhaps, to separate "(G-CSF)" and "a polyol:oil". Clarification is required.

8. Claim 1 is further vague and ambiguous because it is not clear if a thickener is included as an ingredient of the claimed pharmaceutical composition. In case a thickener is a part of the composition, it is suggested that its addition is recited among the preparation steps.

Art Unit: 1646

9. Claim 1 recites the limitation "thickened oil". There is insufficient antecedent basis for this limitation within the claim.

10. Claim 2 recites the limitation "biocompatible polyol" in claim 1. There is insufficient antecedent basis for this limitation in the claim.

11. Claim 3 recites the limitation "said oil" in claim 1. There is insufficient antecedent basis for this limitation in the claim because claim 1 contains two references to oil, as in "polyol:oil" and "thickened oil".

12. Claim 8 is indefinite for recitation "compositions", plural. It is not clear and cannot be determined from the claim how many compositions are intended by the claim.

13. Claim 8 recites the limitation "said suspension". There is insufficient antecedent basis for this limitation within the claim.

14. Claims 13-17 are indefinite for being dependent from indefinite claims.

#### ***Terminal Disclaimer***

15. The terminal disclaimer filed on September 05, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,245,740 has been reviewed and is accepted. The terminal disclaimer has been recorded.

#### ***Conclusion***

16. No claim is allowed.
